Union Stock Yards to Close Friday

BECAUSE OF PREVALENCE OF FOOT AND MOUTH DISEASE

CLOSE BUSINESS 9 DAYS

Largest Cattle Market in the World-New York State Quarantined to Check Spread of Epidemic '

Chicago, Nov. 4.—The Chicago Union Stock Yards, the largest cattle market in the world, which has been in conin the world, which has been in con-tinuous business since 1865, tonight was ordered closed for several days because of the prevalence of the hoof and mouth disease among cattle. The closing order will go into effect at the close of business on Friday and continue until the opening of business on Nov. 16. This makes the cessation of business at the yards cover nine days, including Sundays.

days, including Sundays.

The decision to close was reached after a prolonged conference of the members of the state board of livestock commissioners with all the leading stock dealers and packers and after consultation with Governor Dunne.

In ten days, it is planned, the stock yards will be thoroughly rid of contagion. The process of climation will tagion. The process of elimination will include the destruction of infected cat-tle, the disinfectio nof cattle pens, and the killing of all rats.

Affects 35,000 Employes-The immediate effect of the suspen-

The immediate effect of the suspension order will be to stop the shipment of cattle, sheep and hogs to the Chicago market, which amounts to almost 100,000 head daily. This alone, outside of the meat packing industry, amounts to a daily business of \$1,200,000 and affects 35,000 employes.

WORST OUTBREAK EVER

IN UNITED STATES Threatens a Temporary Reduction of Nation's Meat Supply

Washington, Nov. 4.—The worst out-break of foot and mouth disease ever known in the United States is the department of agriculture's estimate of the livestock epidemic which has forc-ed federal quarantine over six states and threatens a temporary reduction of the nation's food supply. An emergency appropriation by congress may be required to finance the campaign to suppress the epidemic.

May Affect Food Supply

May Affect Food Supply

Officials said tonight it would be a week before they could forecast the extent to which the food supply would be affected. They are inclined to believe, however, that thet shrinkage will not be large, in spite of the inconvenience to which stock growers and packers will be subjected until the disease it under control. Every possible effort will be made to remove handicaps upon the movement of livestock. The quarantine does not prevent the shipment of stock from unaffected districts to slaughter houses within the quarantined area and there is no embargo against the shipment of dressed meat.

The List of States

New York and Maryland were added to the list of quarantined states today. A department of agriculture statement announcing this: The list of states announcing this: The list of states now quarantined by federal authorities now quarantined by federal authorities, includes New York, Maryland, Indiana, Michigan, Illinois and Pennsylvania. In addition to these, restrictions have been placed upon interstate shipments from Ohlo although no cases have as yet been found in that state. There is reason to fear, however, that infected stock may have been sent into Ohio. If this is found not to have been the case the embargo will be lifted.

First Outbreak Since 1908

This outbreak, which is the first in the United States since 1908, is regarded as the most serious of any that the United States has yet experienced. Not only has it already spread over an extersive area, but its violence seems to be above the average. Vigorous measures will be necessary to stamp it out. The cost of suppressing the last outbreak in 1908 was estimated at 5299,112.10. In addition the loss to dairy and stock raisers was heavy.

Cattle, Sheep and Swine

Interstate shipments of cattle, sheep and swine are absolutely prohibited from the states now quarantined. Stock cannot even be sent from one infected state into another. The federal authorities are at present engaged in endeavoring to accertain the exact area over which the infection has spread and as soon as this is known it will, it is hoped, be possible to lift the quarantine from sections now in-

600 Infected Cattle in Stock Yards The discovery of 600 infected cattle

in the Chicago stock yards was re-garded as the most serious developnent in the situation. Some of the disastrous offects of the outbreak there is believed to have been avoided by the embargo imposed last Saturday against the shipment of cattle from the Chicago yards into other states.

INDIANA BARS CATTLE FROM QUARANTINED STATES mportations of Hay, Straw or Fodder is Prohibited Also

Indianapolis, Ind., Nov. 4.—Importa-tions of cattle, sheep or swine into In-diana from either Michigan, Illinois, Ohlo or Pennsylvania are forbiddden by a proclamation issued by Govern-or Ralston late today. The importation of hay, straw or fodder from those states is prohibited aslo as a means to states is prohibited aslo as a means to check the spread of the foot and mouth disease among cloven hoof animals.

The governor sets forth in his proclamation that shipments of stock for the states named "would be prejudicial to the health of the domestic animals of this state and a menace to its entire animal industry, as well as to the health of the people and their food supply."

supply."

The four states, together with Indiana, are all under quarantine estab-lished by the federal bureau of animal industry because of the disease. "As a matter of precaution, it was explained, a quarantine similar to the

one in force on the Chicago stock yards was placed on the Indianapolis stock yards today. No cases of the foot and mouth disease have be covered in the local yards,
